08 — HOW WE WORK

Five stages from brief to results

01 · brief

Discovery

Business goals in numbers, current processes, constraints and timing

02 · prototype

Structure and UX

User flows and key screens before design and code

03 · design

Interface

Design system and layouts for every device

04 · build

Sprints and demos

Staging server, a working demo every two weeks

05 · launch

Release and growth

Launch, analytics, data-driven improvements and support

You get an estimate and timeline per stage up front, then see progress at every demo — not just at the end.

11 — REVIEWS

What our clients say

"We've been working together for years. The team is diligent and gets results — we're happy with the site and keep working with them."

Viktor
Vapors

"First they automated our business processes, then built the website. Solid quality and design, and they don't disappear after launch."

Volodymyr
Ottenki

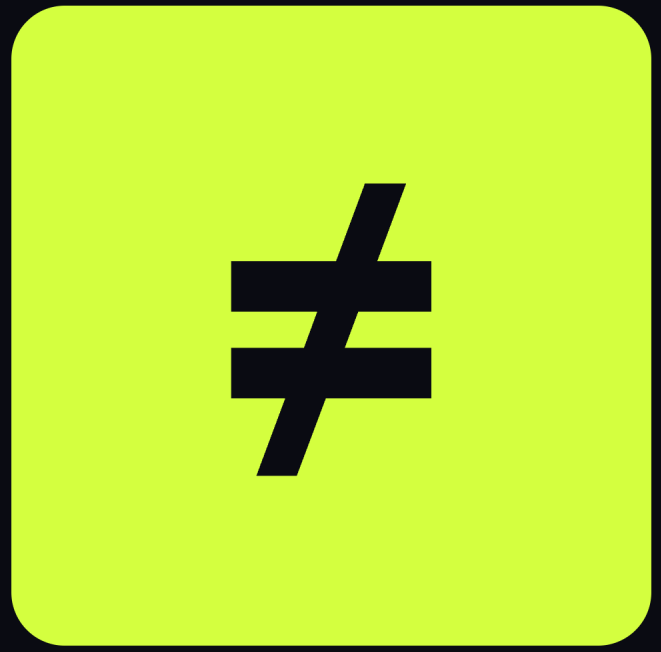

"A fully working website in two weeks. Next, we're moving on to marketing with the team."

Dmytro Zabishnyi
